

BREATHING APPARATUS - THE DRÄGER SAVER SERIES

SAVER CF CONSTANT FLOW ESCAPE BREATHING APPARATUS

PART NOS. CF10: 10 MINUTE ESCAPE SET
CF15: 15 MINUTE ESCAPE SET

Allows safe, effective and uncomplicated escape from hazardous environments with minimal user training. It uses a simple fail-safe pressure reducer, giving a consistent air flow rate at all cylinder pressures, while a combined diffuser and exhalation valve give an excellent air supply to the streamlined hood.

The air hood neck seal is ozone resistant ensuring seal integrity whenever the unit is used. The Saver CF has a very low cost of ownership - with no mandatory service for 10 years. Approved to EN 1146.

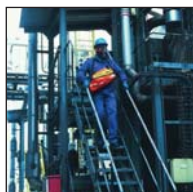

DIMENSIONS:

Length: 490mm
Height: 250mm
Width: 160mm

WEIGHT:

CF 10: 5kgs
CF 15: 6kgs

SAVER PP POSITIVE PRESSURE ESCAPE BREATHING APPARATUS

PART NOS. PP10: 10 MINUTE ESCAPE SET
PP15: 15 MINUTE ESCAPE SET

Positive Pressure Emergency Escape Breathing Apparatus, designed to provide safe and unhampered escape from hazardous environments where breathing has become difficult or endangered.

Proven pneumatics give very low breathing resistance and a consistent air flow rate at all cylinder pressures. The unit comes equipped with the proven Panorama Nova facemask which gives low exhalation resistance. A close and comfortable fit and a self-demisting visor for clear vision.

The Saver PP has a very low cost of ownership - with no mandatory service for 10 years. Approved to EN 402.

DIMENSIONS:

Length: 490mm
Height: 250mm
Width: 160mm

WEIGHT:

PP 10: 5kgs
PP 15: 6kgs
