

FALL ARRESTERS & HARNESSSES

HARNESSES

Harnesses are manufactured from quality polyester webbing which exceeds the minimum strength required in European standards. They are designed with comfort and ease of donning in mind.

QUICK FIT FRS – BOLERO

PART NO. 90297

FEATURES

- Polyester webbing
- Shoulder adjustment, chest strap adjustment and leg strap adjustment
- Rear fall arrest attachment point EN361
- Front fall arrest attachment point EN361
- Nyplax waistcoat to aid donning

QUICK FIT FRS RESCUE – BOLERO

PART NO. 90296

FEATURES

- Polyester webbing
- Shoulder adjustment, chest strap adjustment and leg strap adjustment
- Rear fall arrest attachment point EN361
- Front fall arrest attachment point EN361
- Overhead rescue attachment point EN1497
- Nyplax waistcoat to aid donning

RETRACTABLE FALL ARRESTERS, DESCENDER AND RETRIEVERS

The Fablock range of retractable fall arresters are designed to give the user maximum protection and mobility in working environments where there is a serious risk of falling. This range of retractable type fall arresters Ultra-Lite, Ultra, Preventer and the Preventer Decender can be used in conjunction with the Didsbury Rescue Hoists and Tripod.

ULTRA LITE
PART NOs. 75404: 4.5m
75409: 9m
75412: 12m

ULTRA
PART NOs. 75503: 3.5m
75504: 4.5m
75509: 9m
75512: 12m

PREVENTER
PART NOs. 75612: 12m
75618: 18m
75624: 24m

RETRACTABLE FALL ARRESTERS, DESCENDER AND RETRIEVERS

PREVENTER / DESCENDER
PART NOs. 75916: 16m
75930: 30m

Based upon the proven Fablock Preventer, this version, in addition to its core function as a fall arrester, has a secondary function being an automatic descent device whereby after the arrest the user is automatically lowered.

FEATHER – LITE
PART NO. 75402: 2.5m

CONNECTOR STROP
PART NO. 81002

500mm strop for linkage between harness and fall arrest block. For vertical use above ground to ease attachment and detachment. In a rescue situation the Connector Strop allows the rescuer to free the casualty from a system when using steel cable.

ULTRA RETRIEVER
PART NO. 75715P: 15m

The Fablock "Retriever" range of fall arresters are designed specifically for below ground and confined space working. They give total protection from vertical falls as well as a secondary function for up or down winding for rescue, via either a handle or chain.

RETRIEVER
PART NOs. 75709: 9.5m
75715: 15m
75724: 24m

BRACKETS
PART NOs. 75709B: 9.5m
75715B: 15m/24m

Tripod leg brackets for attachment for the Retriever and Ultra Retriever to the Didsbury Tripod.
