

Singapore Test Services Pte Ltd

is pleased to be appointed as the

PRIMARY ASIAN SERVICE AND REPAIR CENTRE

for

HOIST and LIFTING SYSTEMS
APPROVED GROUND SUPPORT EQUIPMENT FOR
AIRBUS AND BOEING AIRCRAFT
In addition to hoist systems used for
civil aviation and industrial applications

Singapore Test Services Pte Ltd (STS) is a testing and inspection company, with laboratories accredited to **ISO 17025** standard by the **Singapore Accreditation Council**. Our laboratories are also approved by **CAAS**. The range of services provided include calibration, mechanical / metallurgical testing, non-destructive inspection, chemical analysis and environmental monitoring, testing and inspection of lifting equipment.

As part of its extension of its testing and inspection services of lifting equipment, STS maintains inventory, tooling, calibrated inspection equipment, technical data and sales products needed to support the Didsbury hoist product line.
